

Meeting Report 5

Team Name : Hotel Transylvania **Date of Meeting :** 1/04/2025

Start Time: 11:30 **End Time:** 12:30 **Meeting Location:** "Epoka University"

Moderator: Artemisa Hasalami **Recorder:** Brikena Papadhopuli

Other Members Present: **Members Absent:** None

-Arsildo Veliu

-Erta Llenga

-Esta Cekrezi

-Ester Pashtranjaku

-Megi Almadhi

Topic Discussed:

1. **Use Case Diagrams** - We analyzed and refined the use case diagrams to accurately represent the interactions between users and the system.
2. We reviewed and updated the use case based on the changes that our teacher mentioned
3. **Activity Diagrams** - The activity diagram models the workflow of the hotel management system, capturing key interactions between guests and staff during reservation, check-in, service usage, and check-out.
4. **Dividing tasks** - To ensure efficient workflow and collaboration, we assigned tasks to each team member based on their previous contributions and expertise.
5. **Discussed on changes** - We reviewed the feedback provided by our teacher and discussed necessary modifications to improve the project. This included refining system functionalities, correcting inconsistencies in our diagrams, and enhancing documentation clarity.

Tasks Assigned:

1. Activity Diagram

Team Members Responsible:

Esta, Erta, Artemisa, Megi, and Arsi worked on defining and improving the activity diagram based on the system requirements.

2. Use case Diagrams

Team Members Responsible:

- **Ester and Brikena** worked on creating and refining the use case diagrams to ensure they accurately reflect the system's operations.

Time, Place & Agenda for Next Meeting:

Time - ➤ 11:30 – 12:30 Monday

Place➔ Epoka University

Agenda:☐ **Future Requirements**

- Discuss potential additional requirements that may be requested by the teacher.
- Identify any missing functionalities or improvements that could be needed.
- Plan how to accommodate new requirements in our current system design.
- In the next phase of our project, we will design a state diagram to model the dynamic behavior of key entities in the hotel management system, such as

- **Review of Teacher's Feedback & Changes Made**

- Go over the feedback provided by the teacher.
- Discuss the changes that were made based on the feedback.
- Identify any remaining issues that need to be addressed.
